Easy step by step packing guide

CARDBOARD BOX FOR PRINTED WORKS

1

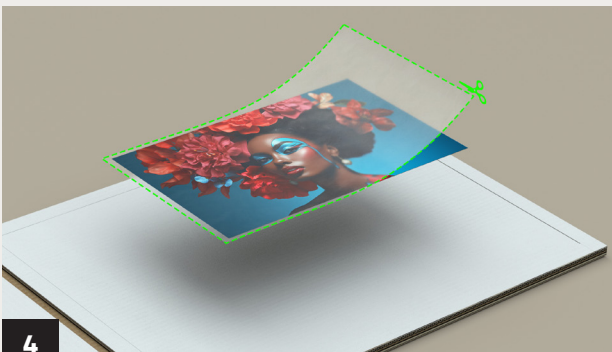

Slide out the inner box

3

Open the inner box

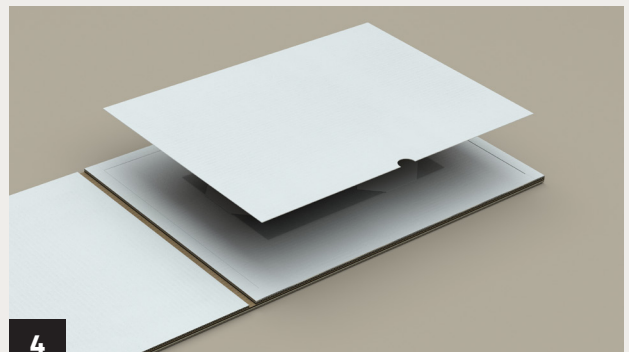

Fold it into opened position

4

Cut the glassine paper and put it then on top of the print

- 1 Cut the glassine to the size of your print
- 2 Put the cutted glassine paper on top of your print

4

Flat print?

If your print is flat, leave the cardboard layer in place.

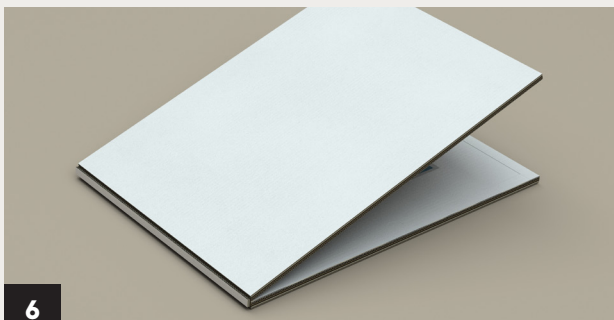

Thick print?

If the print is layered/thicker then take out the cardboard layer and place the print inside there.

Place & tape the folded paper corners

- 1 Slide the corners over the print and the glassine paper (be careful not to damage the print!)
- 2 Tape the corners to the cardboard on it's long sides. Don't let the tape touch any part of the print or glassine paper.

Close the inner box

- 1 Fold it back to closed position
- 2 Slide the inner box back into the outer box

Tape the outer box

Make sure to close it up properly with tape that will stick well

Seal the lid

Place the sealing sticker as shown in the example

Congratulations!

Your artwork is firmly secured and will endure the harshest conditions during shipping. You are ready to ship your printed artwork.
